

# IEEE Services Visionary Track on Dependable and Secure Services (DSS 2015)

2 July (Room 3.02/3.03)

13:00 – 14:00

## 13:00 Introduction

*Nuno Laranjeiro (Session Chair), University of Coimbra, Portugal*

## 13:05 Security Testing Methodology for Evaluation of Web Services Robustness - Case: XML Injection (SERVICES2015-6046)

*Marcelo Invert Palma Salas (Institute of Computing, UNICAMP) Paulo Lício De Geus (Institute of Computing, UNICAMP) Eliane Martins*

## 13:25 Predictive Auto-scaling Techniques for Clouds Subjected to Requests with Service Level Agreements (SERVICES2015-6047)

*Anshuman Biswas (Carleton University, CA) Shikharesh Majumdar (Carleton University) Biswajit Nandy (Carleton University) Ali El-Haraki (TELUSA)*

## 13:45 Performance Evaluation of Virtual Machines Instantiation in a Private Cloud (SERVICES2015-6048)

*Eliomar Campos (Federal University, BR) Rubens Matos (Federal University) Paulo Maciel (Federal University) Igor Costa (Federal University) Airton Pereira (Federal University) Francisco Souza (Federal University)*
